

Cookie Statement Hotellme.eu

This page informs visitors to the Hotellme online platform about the technologies we use to achieve the purposes described below.

Although "cookies" can be used on both web and mobile browsers, mobile apps work differently and in that case are referred to as "trackers". For simplicity, we use the same term for both cookies and trackers: "trackers".

Hotellme uses so-called trackers to perform activities that are strictly technically necessary for the operation of the online Hotellme platform. These are trackers managed by ourselves with which we process data for a maximum of two years. This does not require the consent of the visitor/user.

The online Hotellme platform also uses trackers from Google Analytics, whereby Google Analytics is set to share only anonymized data with Google. Again, this does not require permission from the visitor/user.

Hotellme does not use any other trackers than the ones described above.
